PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of experience building scalable, high-performance web applications. Specializes in Angular and TypeScript; expanding rapidly into React, Next.js, and AI API integrations (OpenAI, Claude). Delivered measurable results: 25% faster load times, 40% reduction in bug reports, and 18% increase in mobile engagement. Currently integrating AI-powered features and no-code automation (Make, n8n) into frontend workflows for international clients.

WORK EXPERIENCE

Frontend Developer VC@SOFT

Jan 2022 – Jul 2024 | Colombia (Remote-capable)

- Designed and developed responsive web applications for national clients including Sodimac, using Angular, NG-ZORRO, and RxJS.
- Improved UI/UX performance, reducing page load times by 25% and increasing mobile engagement by 18% through lazy loading, tree-shaking, and OnPush change detection.
- Built modular, reusable frontend component libraries, reducing codebase maintenance overhead by 30%.
- Led test automation with Cypress (E2E) and Karma (unit), reducing bug reports by 40% and cutting regression cycles by 2 days per sprint.
- Collaborated cross-functionally with UX designers and backend teams in Agile/Scrum environments to deliver user-centered, business-aligned solutions.
- Integrated REST APIs and third-party services, including authentication flows and data visualization components.

PROJECTS

AI-Powered Customer Support Chatbot — React, Node.js, OpenAI API

Built a full-stack chatbot that answers product FAQs using the OpenAI API. Implemented context management and streaming responses. Deployed on Vercel.

SaaS Analytics Dashboard — React, TypeScript, Recharts, REST API

Developed a responsive dashboard for visualizing business KPIs in real time. Includes role-based authentication, data export, and mobile-first layout.

Business Automation with n8n — n8n, REST APIs, Google Sheets

Automated lead capture and CRM updates for a local business, reducing manual data entry by 80% through webhook-triggered workflows.

TECHNICAL SKILLS

Frontend: React, Angular, TypeScript, JavaScript (ES2022+), HTML5, CSS3, Bootstrap, NG-ZORRO, RxJS, Next.js

AI & Automation: OpenAI API, Anthropic Claude API, Make (Integromat), n8n, prompt engineering, LLM integrations

Testing: Cypress (E2E), Karma, Jest, unit & integration testing

Tools & Methods: Git, GitHub, Figma, REST APIs, Agile/Scrum, performance optimization, responsive design

Languages: Spanish (native) — English (advanced, C1)

EDUCATION & CERTIFICATIONS

Technician in Software Programming <i>SENA (Servicio Nacional de Aprendizaje)</i>	Jun 2022
Software Development Diploma <i>MisionTIC 2022</i>	Aug 2022
Software Development Program <i>Platzi</i>	Aug 2021
